

## Fire at Columbia Does Big Damage

Columbia Broadcast Company, W. J.  
Hill & Co., Holland & Company,  
Nashua and Portsmouth with North

At four o'clock this morning they were discovered in Holland & Company's store at Columbia, which rapidly spread to the store adjacent. Three of them were totally destroyed. Holland & Company's store was located on the corner and the Columbia Hardware Co. next door north caught and burned but the

furniture department next door to  
 this building, was not burned. Then  
 W. J. Hill drove back to his build-  
 ing department next door east  
 and this building was burned. The  
 postoffice building which was the  
 next door to this one, was not burned  
 as the fire company got the fire  
 under control along the entire block  
 would have been burnt out.

The three stores that were burned were owned by Mark McGuffee and Dave Wilder.

The stocks were insured but not big enough to cover the loss.

Mr. T. T. Currier, of Delhac, who  
was to left this morning for Co-  
umbia as soon as he heard of the  
fire, to see what damage had been  
done.

It is not known just how the fire started but it is said it burned very slowly. The roof of the Holland company building was falling in before any one discovered the fire.

W H Koonce of Columbia, came to Nathan today. He has announced as a candidate for Tax Assessor of Houston County. He will arrive in Nathan about the middle of the month.

He couldn't go back on his place  
and he did the best thing. He rent-  
ed a farm near by and lay around  
that tenant of his like bats in an  
empty house, and finally bought up  
that five year lease with a cracklin'  
good smile.

He was more fortunate than many  
people who went west. He had  
enough money to come back and  
and to come to.

So many of them have moved  
of in coming back that they have  
long ago stopped to see any of the  
admirable thing west.

The good people who are coming  
in and settling up this section are  
people from the nearby counties  
from this state, and some from  
Georgia, and you can't find any of  
them with any western notions.

You probably couldn't find a man  
in the country who hasn't relatives  
in Texas and half of those relatives  
would like to be back in Alabama  
but they haven't anything here to  
come back to and they have accum-  
ulated but little there to stay with.

HOW THE WORLD IS SHOD

When one of our fellow country  
men visiting London is accosted by  
men on the street as an American  
and puts the question, How do you  
know I am an American? the an-  
swer, nine times out of ten is,  
By your shoes.

This is the London  
peddler or beggar's complimentary  
method of letting the stranger know  
how his national identity is discov-  
ered says the Chicago Evening Post.

The truth of course, is that every  
Englishman and every European  
knows an American as far as he can  
see him and could tell one if he  
were barefooted, the Post goes on  
to say.

American shoes are held in admi-  
ration in England and on the contin-  
ent for smart appearance. The  
English shoe is serviceable, and as  
ugly as man can make it. The  
French shoe is a sight. If an Amer-  
ican were assured that it would last  
a life time he probably would spare  
the chance of possession.

The American government through its  
Bureau of Statistics has taken ac-  
count of the enormous demand for  
American shoes. The figures pub-  
lished, with the promise of observa-  
tion to increase in the next commera-  
tion, make it seem likely that in the  
course of a decade or so that world  
will be shod by America.

In the year 1900 American shoe  
manufacturers exported about 80,  
000 pairs of shoes. This year 8,  
000,000 pairs have been sold to the  
foreigner. In addition to those go-  
ing to the real foreigners, 1,000,000  
pairs have been sent to Porto Rico  
and Hawaii.

The government statistician asks,  
"Where do they go?" and then he  
answers the question thus: Every-  
where apparently, that man wears  
boots and shoes. Japan, Korea, Si-  
am, the Dutch East India, Egypt,  
Liberia, the Congo, Russia, Aden,  
German Oceania, Ecuador, Salvador  
Turkey, China" and to some thirty  
other countries and dependencies in  
all parts of the known world. In  
view of the fact, the puzzle is how  
any London street peddler pretends  
to tell a man is an American  
because he wears American shoes.

It is possible that our shoes are sold  
more cheaply abroad than they are  
at home, but during the last nine  
months \$14,744,948 worth of them  
went out of the reports of the Uni-  
ted States in the hands of vessels  
and steamships.—Bimperia Gazette

tion for his work as Chinese Sec-  
retary of the American Legation in  
Peking, from 1901 to 1908. This  
post brought him into relationship  
with all the leading Chinese, from  
the throne down, and his character,  
quiet, retiring, apt in converse, fa-  
ithful in confidences and steadfast  
in friendship won him the intima-  
cy of many Chinese statesmen. He  
has been official counselor to many  
of them in trying times.

All these assets were placed loy-  
ally at the service of the American  
Government. A passion for serving  
the two great nations of the East  
and the West, so unlike and yet  
so alike, may be found deep in the  
heart of this self-sacrificing, uncom-  
mon man, who has been selected  
to let others enjoy the limelight  
while he, in loyal cooperation with  
his chiefs, has quietly helped in  
bringing things to pass. From Pek-  
ing, after a short term in the im-  
portant post at Tien Tsin as a con-  
sul-general, he came to the newly  
organized Far Eastern Bureau of  
the State Department. Thus he  
knows the inner workings of the  
government both in Washington  
and Peking.

He has unequalled attainments  
with the Chinese in authority, and  
a close knowledge of the mission-  
ary body scattered throughout China.

A better man to stand guard at  
this critical hour by the old bar under  
the shadow of the walls of Pek-  
ing could not be made to order—

PREVENTION AND NOT  
TREATMENT

An osteopathic association recent-  
ly adopted a resolution favoring a  
national department of sanitation,  
but opposing a national department  
of medicine. This is encouraging,  
and this osteopathic association is to  
be congratulated on its broad mind-  
edness and common sense. We did  
not know, however, that anyone fa-  
vored a department of medicine, or  
that there had been a suggestion  
that it once be established. The Jour-  
nal of the American Medical Asso-  
ciation thinks that the veterinarian  
is a creature of the moment, un-  
likely and unstable. In a recent ed-  
itorial the Journal says that a na-  
tional department of health would  
be created with the work of such  
in the cure and methods of pre-  
vention of disease. It would be  
a department of the health of the  
people, and it would be the first  
step toward the establishment of a  
national department of health. The

Has Gorgas, in the Canal Zone  
trodden on the rights of any one  
yet? Yet America is building the  
canal, where France failed, because  
applied scientific knowledge is guard-  
ing the workmen from disease and  
keeping him alive to do his work.  
It is about time that the American  
public understood that the stock ob-  
jections to advanced sanitary regu-  
lations are based on ignorance and  
misconception of both the law and  
the facts. A national department  
of health, like our state boards of  
health, would be for the study and  
prevention of disease and the ad-  
vancement of public health and not  
for the treatment of individual pa-  
tients or for the regulation of the  
practice of medicine.

### MAN CALLED MURDERER AND SENT TO DEATH

(Dothan, Ala., Dec. 1.)—Mark Smith, who returned here yesterday after an absence of several years as a member of the American navy, is today confined in the county jail with a charge of murder against him and his victim Turner Lewis, who it is alleged was shot and killed at a local undertaking establishment ready for burial.

Last night about midnight Smith went to the home of Lewis. The latter was sleeping with his wife. Smith at the time and was aroused from his bed by the knocking at his door. From the door he went to the door to meet his death. He did not know who was calling nor what was wanted. There was no conversation and no quarrel. When Lewis went to the door he was shot and sent to death by Smith.

The cause of the killing is supposed to have been the story told Smith on his arrival here of the treatment accorded his sister by Lewis. The man has been a member of the navy for a number of years and when he went away he left his young sister here who afterwards married Lewis and to them a child was born. Lewis is alleged to have forsaken the wife and carried the child away to live with him.

When told of the incident Smith went on a hunt for Lewis. His home was found and the killing followed. As soon as the shooting had ended the life of his brother-in-law Smith

went to a restaurant and ordered a big supper. He then returned to the county jail where he awaits sheriff Lister. He surrendered himself to the county officer and is today locked in a cell charged with the murder of Lewis. The killing when it became known this morning, caused a lot of excitement. It is supposed that the man will have a preliminary hearing in a few days.

### HOW TO REMOVE FRECKLES

Wilson's Freckle Cream is positively guaranteed to do the work.

Letters are constantly being received by the makers of Wilson's Freckle Cream from prominent ladies saying that they have at last discovered how to remove freckles. Just because you happen to have freckles is no reason why you should always have them.

Mrs. M. J. Rivers wrote from Bernese, Switzerland, saying: "I am at last giving Wilson's Freckle Cream a fair trial. It does not cure your skin, there is no remedy for you. I always took the best care of my skin, but freckled dreadfully and could get no remedy until I found Wilson's Freckle Cream."

One jar of Wilson's Freckle Cream will cause your freckles to perceptibly fade, and the second jar will entirely remove them.

The druggist is instructed to return your money to you if it does not do just what we claim for it.

Try a jar today. You'll be delighted with its fine effects on your skin. If your druggist cannot supply you send 50 cents to the Wilson Freckle Cream Co., Charleston, S. C., and they will send you a full size jar. Rogers' Drug Company.

last night at the home of her  
parents on College Street. She  
was born on Jan 11 1911 and was

remained to be in good health until  
after their return that night when  
she showed symptoms of infantile  
paralysis which is said to be the  
cause of her death.

from the family home and interment  
will be made in the city cemetery.

CARDU WORKED LIKE A CHARM

After Operation Failed to Help

Cardu Worked Like a Charm.

Jonesville, S C.—"I suffered with  
womanly trouble," writes Mrs. J S  
Kendrick in a letter from this place,  
"and at times, I could not bear to stand  
on my feet. The doctor said I would  
never be any better and that I would  
have to have an operation or I would  
have a cancer.

I went to the hospital and they oper-  
ated on me but I got no better. They  
said medicines would do me no good,  
and I thought I would have to die.

At last I tried Cardu and began to  
improve so I continued using it. Now,  
I am well and can do my own work.  
I don't feel any pain.

Cardu worked like a charm."

There must be merit in this purely  
vegetable tonic remedy for women's  
Cardu—for it has been in success-  
ful use for more than 40 years, for the  
treatment of womanly weakness and  
disease.

Please try it, for your trouble.

WHILE CRANKING AUTO

While Cranking an auto Mrs B

J Grant happened to the accident

of having one of her arms broken  
just above the wrist this morning.  
The accident occurred about two  
miles from the city near the double  
trunk east of here and was caused  
by the engine back firing or kick  
back. Mrs Grant was out with a  
party of friends taking a ride when  
the car choked down in a sand bed  
thus having to be cranked off again.  
The crank flew back and hit her  
arm breaking the bone but the in-  
jury was not thought to be serious  
until she had driven the car some  
peter further when the intense pain  
caused by the break made it neces-  
sary to telephone to town for aid.  
Mr Grant went out in another car  
and in a few minutes the broken arm  
had been reset and other medical  
aid rendered.

way they are put together. The

WHILE CRANKING AUTO

While Cranking an auto Mrs B

J Grant happened to the accident

of having one of her arms broken  
just above the wrist this morning.  
The accident occurred about two  
miles from the city near the double  
trunk east of here and was caused  
by the engine back firing or kick  
back. Mrs Grant was out with a  
party of friends taking a ride when  
the car choked down in a sand bed  
thus having to be cranked off again.  
The crank flew back and hit her  
arm breaking the bone but the in-  
jury was not thought to be serious  
until she had driven the car some  
peter further when the intense pain  
caused by the break made it neces-  
sary to telephone to town for aid.  
Mr Grant went out in another car  
and in a few minutes the broken arm  
had been reset and other medical  
aid rendered.

FINE PICTURES ARE SHOWN

The vast difference between an  
automobile that is manufactured  
and one that is assembled is very  
forcibly shown by the wonderful pic-  
tures that are being shown by Mr  
Boyer a representative of the State  
baker Corporation in Troy at 10

# This is the Coffee Andrew Jackson Liked so Well

After his brilliant victory at Chalmette in 1815, Andrew Jackson led his troops past the old French Market in New Orleans, and treated the officers and men to fresh, hot French Market Coffee. And in 1843, Henry Clay—at the conclusion of his eloquent speech at the great banquet in his honor—shipped away, with his friends, to the old French Market for a cup of the same famous beverage. Then you could get

The hands are but a detail. It is the same old story.

Hands like faces depend on health.

One must diet and exercise and drink water.

The hands change color with surprising rapidity.
